Rav. J. W. Dunjee, a prominent col-

race in their political campaigns,

litically in them which they daily

manifest toward them in their business

relations. We see constantly that col-

ored men trust most implicitly the

whitee in vital matters appertaining to

their contracts for labor, by which they

and their families are supp ried. Why,

therefore, should we not equally trust

them about our political matters, which

are far inferior in their bearing on our

well-being? If we answer candidly why

this want of confidence in political

matters, we must say, in our judgment,

it is due to the fact that our political

suides and associates, mostly from the

north, have persistently instilled in the

minds of the colored people the idea if

the Democratic party obtain power that

the amendments to the Federal constitution and the guarantees of

the States in behalf of freedom

would be repealed, and that we would

be put back in slavery. This has placed

the colored people politically more in antagonism to the southern whites,

and rendered their minds more suscept-

ible to all forms of imposition at the

hands of the carpetbag element than all

other causes combined. The experience,

however, of Conservative or Democratic

ascendancy, in the last six or seven years, in most of the southern States, is

causing the scales of prejud ce and error

to fall very rapidly from our eyes, and,

so far from placing our rights in jeopar-dy, we are rapidly learning that our per-

sonal security seems to be only assured

to us where that party has control in

the southern whites, backed up by the

northern people. In regard to the four-

teenth amendment, which gives to the

southern States some thirteen or fourteen more members of congress, and, by con-

sequence, the same number in the

electoral college, more than they would

have without it; the southern whites controlling this additional political power would be less willing therefore to

see it repealed than the northern people

themselves, for by means of this they

msy now and for all time to come deter-

mine the Presidential struggle, or con-

tinue their present ascendancy in the

house of representatives. And as means for such an end, we know by the past

that they will never willingly surrender

it. These views and this experience is rapidity preparing the minds of the colored people, or at least the more intelli-gent of them, to aid the southern whites

The Complete Cotton Cleaner, a New, Valuable and Moneymaking Machine to every Cotton producer or ginner,-thoroughly removes all Dust, Dirt, Sand and light TRASH from cotton before ginning, and improves the quality of the lint from one to

four grades. No gin house should be without one of these "cleaners". It is light, simple, and easily adjusted to either Horse or Steam power, occasioning little or no increased draft, is readily understood, simple in operation, not liable to get out of order, and will pay for it-

self in less than ten days work. Manufactured and sold by Allison Brothers, Memphis, Tenn. Send for Circulars and Price list Ell

Read what is said of the "C. C. C." by those who have fully tested it:

FRIARS POINT, MISSISSIPPI, July 20, 1876. FRIARS POINT, MISSISSIPPI, July 20, 1876.

Gentlemen—I have, during the past season, had in successful operation the "C. C. C." purchased of you. I am greatly pleased with it, and consider it an absolutely indispensable machine in every gin-house. All its claims have been fully sustained, and I think you have not, in the least, exaggerated its merits. It certainly takes all the dust and dirt out of cotton, leaving it in a beautiful condition for the work of the gins. Its most apparent benefit is, of sourse, upon the lower grades, but I believe it will very much enhance the quality of all cotton—the first as well as the last pickings. Yours, truly,

D. L. CHILDRESS.

ROWLEY'S LANDING, MIESISSIPPI RIVER, ARK., January 25, 1876. Messes. Allison Brothers, Memphis:
I have had the "Complete Cotton Cleaner," bought of you, in constant operation, and it works to perfection. Mine more than paid for itself it two weeks work.
I can gin and make a good sample of cotton from the pickings from the ground, as also that gathered with bolls. Cotton picked with ordinary care is improved one-fourth to one-third in value, at present prices. With the aid of the "C. C." I can work up and gin damp cotton without trouble. I find that with cotton from the "C. C." my gin picks the lint off more readily and with less draft. Yours, etc.,

Memphis, Tennessee, July 1, 1876.

"A DECIDED ADVANCE."

MEMPHIS, TENNESSEE, July 1, 1876.

Gentlemen—I used the "Complete Cleaner," bought of you, on my entire crop last year and it gives me pleasure to add my testimony to its excellence. The machine does all you claim for it, thoroughly cleans the cetton of all dust, dirt and small trash, loosens and lightens it, thus enabling the gin to do better and more work, with less draft and less wear of machinery, makes merchantable cotton of much that would be a total loss, and while in every way it adds greatly to the convenience of the ginner, it adds equally as much to the proprir of the planter. Especially in these days of Low Prices, is it "an indispensable machine to every cotton planter or ginner."
